

St Helena Government

17th February 2026
Licence No R02/2026

Sarah Mbeta Iguna
Research Support Officer
St Helena Research Institute
Jamestown
St Helena

Dear Sarah,

Ref: Research licence pursuant to St Helena Research Policy (2025) issued to Sarah Iguna, St Helena Research Institute

This letter serves as a research licence granted under the St Helena Research Policy, 2025.

The St Helena Research Council (herein referred to as the Council) has considered the services evaluation application submitted by Sarah Mbeta Iguna, PHD student in Therapeutic & Rehabilitation Sciences, Leeds Beckett University, titled ***“Total Meal Replacement (TMR) Diabetes Remission Programme”*** (our reference R02/2026).

The Council is pleased to issue the licence on the basis that:

- The research to be undertaken is part of a recognised research project that has the necessary funds to under the project activities.
- The research team has the scientific competence to undertake project activities.
- The Research which forms part of the PHD degree of Sarah Mbeta Iguna will contribute to the body of knowledge on St Helena by providing a robust local evidence that intensive dietary interventions can be both feasible and effective in small island settings, with implications for scalable, context-appropriate strategies to address the growing burden of diet-related chronic disease. The information produced by the study could lead to informing and improving services to help people living with diabetes.

St Helena Research Council, Education, Skills & Employment Portfolio, St Helena Government
T. 00 (290) 22607 E. ceri.morgna@sainthelena.gov.sh www.sthelenaresearch.edu.sh

This licence is valid from the date of issue of the licence to the **30 December 2031**. It pertains specifically to the activities described in the submitted Application to Conduct Scientific Research on St Helena (R02/2026) and supporting documentation.

The licence is granted to Sarah Mbeta Iguna, the licensee, and extends to all members of the project team undertaking activities in support of the research under the licensee's supervision provided they comply with the conditions of this licence.

Since the research is funded by UK through UKSHA, is supported by the SHG and Sarah is an employee of SHG, this licence is granted without application of the £250 fee.

The Council thanks you for your application and looks forward learning about your research findings.

Yours sincerely,

A handwritten signature in black ink, reading 'Ceri Morgan'.

Ceri Morgan
Chair St Helena Research Council.
